No. 1953—EIGHTH YEAR. BUENOS AYRES, THURSDAY, AUGUST 13, 1868. CIRCULATION 3000

MAUA BANK,
101-103 CALLE CANGALLO

The offices of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current, bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of checques, part or the full amount at their wish, save when the quantity exceeds three hundred doubloons or one hundred housand dollars currency, in which case forty-eight hours' previous notice is required to be given t the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England and France, as also on other places, of which notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions within the orbit of banking operations.

The establishment is always open from 10 a.m. till 3 p.m.

EXTRACTUM CARNIS.

LIEBIG'S SYSTEM.

The Consumption of this substance, the concentrated nutritious parts of Meat, is daily increasing.

Physicians recommend its use in several diseases, and for Convalescents:

Aged Persons, Infants after being Weaned, People of Weak Digestion, and Sickly, and those who desire an agreeable and efficacious substitute for Cod Liver Oil, take it with very good results.

It is of great service in Cookery, serving as a basis to all kind of Soups, Sauces, and Made Dishes.

It is also anti-scorbutic;—it ought to be used on Board of all Vessels to prevent that disease.

It is to be found, with a direction for use, at:—

THE ROMAN CATHOLIC GERMAN SCHOOL.

For several years there exists in this City, at No. 118, CALLE LIBERTAD, a CATHOLIC GERMAN SCHOOL, which, through the zeal and proficiency of the Masters, has given the most satisfactory results.
The Pupils are charged only a small sum Monthly, and, according to the Rules, the Poor are Educated Free.
The School receives no aid whatever from the Government or the Municipality, being supported only by a number of Resident Catholic Germans. Its financial position, therefore, is not such as could be desired, and, in order to improve it, a RAFFLE has been got up, the Prizes being given by various well-wishers. We hope that our Friends—Lady Friends in particular—and all supporters of Education will not withhold their aid. For this philanthropic purpose, several Articles of Handiwork have already been presented; and a Committee has been formed authorised to receive Donations, as well as to Sell the Tickets. They will duly notify the days for Exhibiting the Prizes, and for the Raffle.
The Committee consists of:—Señoras Rosario Gallino de Diekelmann, 155, Salta; Josefina Klappenbach de Scharff, Cordoba, between Cerrito and Libertad; Mercedes Ortiz de Schaty, 188, San Martin; Maria Dönnewald, 197, Paraguay; and Juna Brüggemann, 18, Libertad.
Tickets—$20 m/c. each—can also be Purchased of:—Señores Wolff, Wissmer, and Co., 30, Peru; Alberto Larsch, 103, Florida; Bdo. Buck, 10, Maypu; The Editor of "The Deutsche Zeitung," 105, Piedad; also at THE STANDARD Office. 40,1m,a9

CORRIENTES—CURUPAITI—HUMAITA.
August 7, 1868.

As I announced to you in my last we arrived at Corrientes yesterday at about eleven o'clock. Finding that the Parana could not be despatched in time to reach Curupaiti before sunset Captain Morse decided not to leave before this morning at 2 a.m., and we had therefore time to become acquainted with Corrientes. The streets present a deserted appearance, and the bustle and movement that was going on a few short months ago is gradually disappearing, and will further be diminished now that the hospitals and army depots are all being moved to Humaita. I wandered about for some time with two of my fellow-travellers, but the sun's rays were so inconveniently powerful that we were glad to take shelter in the comfortable residence of Sr. D. Augusto de la Riestra who so ably represents Messrs. Lanuz and Lezica, the great army purveyors, where we were treated with a hospitality and cordiality that call for the most grateful acknowledgement.

We went on board early in the evening, in anticipation of the work before us to-day; but about eleven o'clock, just as we were composing ourselves to sleep, a swarm of about a hundred noisy passengers, bent on visiting Humaita, came on board and invaded the whole ship, keeping up such an incessant uproar, that any further sleep after this was a matter of impossibility. Every available sofa and corner, both in the cabin and the saloons, was called into requisition to provide them with accommodation for the night.

Shortly after two o'clock this morning we weighed from Corrientes, and about 6.30 came to an anchor at Curupaiti. The landing-place is at a high barranca, that rises almost perpendicularly from the water's edge, surmounted by a wide plateau of open camp, encompassed on every side by thick jungle and morass. No traces are left of the batteries that once commanded the narrow channel of the river, and we had no time to visit the remains of the land fortifications, which lie some ten or twelve squares lower down, and are said to be far more formidable than anything to be met with at Humaita. It is at this place that the proveedores and army suttlers held their head-quarters till a few days back, and the rows of wooden huts that form four long streets, show, even at a cursory glance, the almost incredible amount of commercial transactions that are being carried on at the seat of war. The innumerable temporary sheds that have been raised here are full beyond measure, with every imaginable article of importation. All the merchandise brought here, comes free of duty through Montevideo, an arrangement most ingurious to legitimate trade, and by which nobody benefits, save a few 'mercachies.' Now, that General Argolo, with the second army division, has moved up to Humaita, the dealers are preparing to follow there from Curupaiti.

We left Curupaiti about ten o'clock and after winding through lovely scenery for a short hour, we came to the noble sweep the river takes in front of Humaita, the limits of this now more than ever memorable fortress being marked by two bold headlands, bounded on each side, and on the opposite bank by rich woods waving in leafy luxuriance to the shore. We then descry the battered towers of the Humaita church which stands on the northern point; after passing a small fleet of proveeduria ships made fast to the shore, and after almost grazing the frowning remains of the London battery, we come to anchor astern of the Brazilian Admiral's ship, and nearly abreast of what was Lopez's mansion.

Among the several Brazilian men of war and transports riding at anchor in front of the dismantled fortress H. Majesty's gunboat Linnet although the smallest, fixes at once the attention from her neat and tidy appearance contrasting agreeably with the ships that surround her. She is the only neutral man of war present.

It has been said of battle fields, that it is the painter, and not the warrior, that has made them celebrated. But a description of Humaita will only add to it a negative celebrity.

Humaita, the vaunted Sebastopol of South America, proves to be a gigantic hoax, its boasted impregnability a mere bugbear, and its celebrated works of defence a grand phantasmagoria. The allies have earned the unenviable glory of having been for months and months sitting down before a small ditch and a mound that many a Leicestershire hunter would not have swerved from, defended by a few half-naked and puny boys, with inferior armament, and rude and primitive contrivances. The redoubts and redans, the scarps and counterscarps, the fosses and abattis of which we had heard so much have no existence save in the fertile imaginations of those who had not sufficient energy to reconnoitre or approach the place by strategic principles: in fact, it is an utter farce to call Humaita a fortress at all; it is only a vast entrenched camp whose defences, most imperfectly constructed, are not half so strong as the entrenched camp, built temporarily, and occupied by the division of General Rivas, in the Chaco.

On the river side the defences were certainly of a more formidable nature, but even they did not offer any insuperable difficulty to a resolute enemy, amply provided as the Allies were with ironclads and good artillery. Reserving, however, for my next, a fuller account, I must proceed to give you the latest news of passing events.

The history of the evacuation will certainly form one of the most remarkable episodes of this Paraguayan war. I communicated in my last, that on the day before yesterday the garrison that was beleaguered in the peninsula, after their mad attempt to force their passage through the head of the laguna in canoes, surrendered unconditionally. The losses they are supposed to have suffered in killed and starved, are set down at from 600 to 700. I was able to glean the following details of their surrender. A Spanish priest, belonging to the Brazilian hospitals, having previously obtained the Admiral's leave, proceeded on the morning of the 5th, with a flag of truce, to the Paraguayan camp in the Chaco, and on arriving there he exhorted them, in the name of religion and humanity not to prolong a useless resistance, but to surrender themselves. He found great resistance at first because they said that they were afraid that on coming out of their cover the Brazilian ironclads would mow them down with grape and shot. The priest then seizing a cross said he would put it over his breast and march at their head, and that the Brazilians would not fire upon him, but even if they did the symbol of Christian religion would have the virtue to turn aside any shot or shell fired upon it. Col. Martinez then called together his officers and in an eloquent speech told them the intention of the allies was to bring liberty to their beloved country and free them from the thraldom under which they existed; that the allies were as good Christians as themselves, and he strongly urged them to surrender. Each officer was asked individually his opinion, and all having assented, the Spanish priest embraced the two Paraguayan padres, and a most pathetic scene took place. The Spanish priest distributed some bread and wine among the ravenous throng, and they then marched into General Rivas' camp, and formally surrendered. The officers were allowed to retain their swords, and the whole of the prisoners were then taken over to Humaita in Brazilian steamers. At the landing the 45th Reg. of Brazilian infantry was formed to receive them, and as they passed up gave them a military salute. Yesterday the prisoners were divided among the allies in equal parts, and General Argolo having called together all the Paraguayan officers told them that they were free to select for their residence either of the allied countries, in any of which they would meet a cordial reception, and be respected for the bravery they had displayed. The names of the officers are Colonel Rodriguez, Captains of the navy Gil and Cabral, and Major Rios. Captain Gil is well known in Buenos Ayres and used to command a steamer running between Montevideo and Asuncion. He as well as his fellow prisoners fully confirm the news of the late revolution against Lopez, and they give the following as the names of those who were executed in consequence of it:—Minister J. Berges, D. Antonio de las Carreras, General Bruges, of the Artillery, who formerly commanded at Paso de la Cueva; Captain Francisco Fernandez, confidential agent of Lopez, and his principal man of business, and a Major Fernandez. Amongst those who were arrested are Coriolano Marquez, Francisco Rodriguez la Reta, Attaché of the Oriental Legation in Paraguay, and Antonio Nin-Reyes, Consul of the Oriental Republic. It would appear that both Col. Venancio Lopez and Beigno Lopez, brothers of the President, were at the head of the revolution. The first was the Commandant at Asuncion, and is supposed to have been shot, but nothing positive was known about him or his brother. Berges and those who shared his fate were brought in irons from Asuncion, and executed at San Fernando, Lopez's head-quarters.

Dr. Stewart was supposed to be at Timbo, as well as Dr. Skinner, who remained to the last in Humaita, and waded from the Chaco in charge of a canoe with sick and wounded, and is even reported to have himself been wounded. Colonel Alen is also believed to be in Timbo, wounded by his own hand, in an attempt to blow out his brains.

The ironclads are under orders to attack Timbo, and by land the allies are preparing to occupy the Villa del Pilar, which is about seven leagues from Humaita. San Fernando, Lopez's headquarters, is only about ten leagues from Pilar.

THE ARNO'S MAILS.

The R.M.S. Arno arrived yesterday morning. The following is the list of passengers:—

Messrs G Frastick, C T Getting, A Grant, Drew, O'Gorman, G Prius, Rev S W Barry, Hon W Stuart, wife, and two servants; Mr and Mrs Michael Mulhall and servant; Messrs Horace de Hardaos, Domingo R y Soane, A Cecilio Martinez, Francisco Lopez Otero, Domingo Antonio Martinez y Fanapera, Anto Soto Amil, Gaspar Luiz da Silva, A Jose Rebeiro, Felippe Buzarin y Goncalez, Blas Dias y Sobral, M Cebreiro y Cebreiro, D Ledo y Otero, Jose A y Fernandes, M Boente y Otero, M Rivera, José Benites, Joaym Rubio Tomero, Clemente Rodrigues y Rodrigues, Mr Vicente Arroyo and servant; also Messrs Joao Mario Emilio Drigot, Augusto Gustavo Lix Klett, Luis Bofet, Florentino Mayol, Julio Capelle, Jaspers, Isaac, &c.

Specie—Seven boxes of gold and paper money, £31,062, for Mr. Ambrosio P Leziza.

Eight packages jewellery, value about £3,000, for sundry consignees

The Arno left Rio at 8 p.m., on the 6th of August, and arrived at Buenos Ayres on the 12th, having experienced fine weather throughout the trip.

Mr. Thornton, our ambassador to the United States has been making vigorous efforts for a renewal of reciprocity between that Government and British North America, but nothing apparently can be done in the present temper of Congress. Not long ago Mr. Seward sent to the Senate a communication from Mr. Thornton, referring to a document received by Lord Stanley relating to the complaints of Nova Scotian coal producers (that while American coal was admitted to the province duty free, a duty is imposed by the United States upon Nova Scotian coal). The effect of the motion by Mr. Seward has been to draw out a great number of protest from the owners of American coal mines, sufficiently vigorous, it is to be feared to induce unfavorable action by the Senate on the subject of reciprocity.

The *Times* says that an Orange demonstration was made on Wednesday at Lisburn. 5,000 or 6,000 Orangemen assembled in the Grain Market with flags and music, and went though not in array, from that place to a field near the railway station, where a platform had been erected, and speeches were made. The Rev. Dr. Drew expressed his gratitude for Mr. Disraeli's reply to Lord Enniskillen's letter, and for raising the No Popery cry. During the proceedings three constables, in plain clothes, who had taken part in the prosecution of Mr. Johnston, were recognised by some of the Orangemen chased out of the field, pelted with stones, and obliged to take refuge in the railway station. A large crowd collected about the station and refused to disperse. A body of 60 police under the command of Mr. Montgomery, resident magistrate, and two Sub-Inspectors, arrived. The riot act was read three times before the mob dispersed and they were enabled to rescue the three constables.

Their Royal Highnesses the Prince and Princess of Wales, accompanied by his Royal Highness the Duke of Edinburgh and their Royal Highnesses the Grau Duke and Duchess of Mecklenburg-Strelitz, honoured the Royal Italian Opera, Covent-garden, with their presence. The arrival of the Duke of Edinburgh was the signal for a burst of enthusiastic cheering on the part of the audience. The National Anthem was immediately given by orchestra and chorus, and the Duke of Edinburgh, advancing to the front of her Majesty's box, was greeted with loud and prolonged acclamations.

A prospectus has been issued of the London, Belgium, Brazil, and River Plate Royal Mail Steam Ship Company [Limited], with a capital of £200,000, in shares of £20, to acquire and work the line of steamers established by Messrs. Tait and Co., from London and Antwerp to Rio Janeiro, Montevideo, and Buenos Ayres, which has been carried on for the last 12 months, and for which a postal subsidy for ten years has been granted by the Belgian Government. The line comprises four steamers, built to combine economy with speed, and the first voyage under the Belgian contract has just been completed with very satisfactory results.

The heaviness of tone shown by the funds continues, further check being given by a withdrawal of a quarter of a million in gold from the Bank on account of the Argentine loan, by the launching of the prospectus of the Swedish loan, and by the expectation that loans for Egypt, Italy, and other foreign states will soon be introduced. At the same time yesterday's improvement of ⅛ to ¼ per cent. in the French Rentes has been lost. Consols accordingly closed at a fresh decline of ¼ per cent., while in the Reduced and New Three per cents. the reduction was more considerable. The India Government Five per Cent. Stock likewise fell ¼. As regards other securities, the day's transactions had reference chiefly to the coming settlement, preparations for which will begin on Monday. Home railway stocks were firmer, speculators for the fall showing a disposition to close their accounts, especially in Metropolitan Original and Extension stocks, in which the advance was ⅞ and ½ per cent, respectively. A fractional improvement also occurred in a few of the other chief lines. With regard to foreign stocks, Egyptian were weaker, in anticipation of the issue of the new loan next week, and there was also a reduction in Spanish, Turkish, and a few others, but Italian bonds were better. The only other movement worth mentioning was a rise in the securities of the Crystal Palace Company.

The discount market to-day was quiet, with plenty of money, and the rate for good bills did not exceed 1⅜ to 1½ per cent. The demand at the Bank discount-office was but moderate. In the Stock Exchange loans on English government securities were offered at 1 per cent. per annum.

Votes of thanks to the Abyssinian army were moved and carried by acclamation in both houses of Parliament. The scene in the Lords was such as is only witnessed on rare and important occasions. The peeresses' gallery was crowded with ladies in brilliant toilettes, and the space on the floor was also fully occupied, the Prince of Wales and the Duke of Edinburgh being among the peers present. The Earl of Malmesbury moved and Earl Russell seconded the motion in the Lords; the vote in the Commons was proposed by the Premier and seconded by Mr. Gladstone. The speeches delivered were highly laudatory of the conduct of the expedition from its commencement to its close. In eulogising the general, officers, and men, Earl Russell and Mr. Gladstone did not fail to recognise in handsome terms the merits of the Government in connection with the enterprise.

THE NEW BRITISH MINISTER.

We offer, on the part of the foreign community, a sincere welcome to the Hon. William Stuart and lady, who arrived yesterday per Arno. Mr. Stuart is not a stranger to South America, having been some years ago attached to the Legation at Rio de Janeiro. He belongs to an old and noble Scottish family, the 1st Baron Blantyre dating so far back as 1606, and is eldest brother to Charles Stuart, 12th Lord Blantyre, who resides at Erskine House, Glasgow. The 11th Baron, father of Mr. Stuart, was accidentally shot in the revolution of Brussels, 1830. Our readers will find an interest in perusing the *foja de servicios* of the new Minister. We may add that he is in his 44th year, and is brother-in-law to Sir Andrew Buchanan, Minister at St. Petersburg

The Hon. William Stuart, is an M.A. of Trinity College, Cambridge. Was appointed Attache to the Embassy at Paris, September 29, 1845; acted as Private Secretary to the Marquess of Normanby from June, 1847, to February 1852: was appointed 2nd Paid Attaché, December 24, 1851; was Chargé d'Affaires from August 19 to August 29, 1852; and was appointed 1st Paid Attaché at Paris, September 30, 1853; brought to London the ratifications of the Treaty of Paris of March 30, 1856; was appointed Secretary of Legation at Rio de Janeiro, February 8, 1858; was Chargé d'Affaires from June 13, 1858, till December 4, 1859; was transferred to Naples, June 10, 1859. He left Naples when the Mission was withdrawn, but was in the receipt of salary till April 5, 1861. Was appointed Secretary of Legation, November 8 following. Was Chargé d'Affaires there from June 17 till November 12, 1862; was appointed Secretary of Legation there September 30, 1862; and was again Chargé d'Affaires from August 14 till October 9, 1863. Was Protocolist to the Conferences in London on the Affairs of Denmark, from April 20 till June 25, 1864; was appointed Secretary of Embassy at Constantinople, May 26, 1864, where he was Acting Chargé d'Affaires from September 9, 1864, till May 14, 1865. Was appointed British Diplomatic Commissioner to attend the Conference at Constantinople, for the purpose of inquiring into the means to be adopted to prevent the spread of Asiatic Cholera, January 10, 1866; and Secretary of Embassy at St. Petersburgh, June 18, 1866. Was acting Chargé d'Affaires from Oct. 24 to 30, 1866.

EDITOR'S TABLE.

Yesterday morning the mole was crowded by parties waiting for the Arno's passengers. The gunboat Spider put off at an early hour, with Mr. Blunt on board, to bring our new British Minister ashore. The friends of Mr. C. T. Getting started a little after daybreak in the little steamer Baby; but, owing to the terrible fog, she ran down close to Quilmes in search of the Arno. After great delays she found the steamer, and arrived at the mole a little before eleven o'clock.

The mails per Arno very narrowly escaped being delivered to the fishes yesterday morning. When the mail bags were placed on board the horse cart alongside the whaleboat, it was found that the left wheel of the cart was caught by a sunken anchor, and all efforts to get the cart out proved fruitless; at last the shafts of the mail cart were made fast to the back of another cart, and then 6 horses were flogged unmercifully to drag both carts out, but even this motive power was for a while insufficient. The cart with the mails was backed on to the boat, and the predicament for fully half an hour afforded intense amusement to the public on the mole-head. There is however nothing very unusual in the matter, we only mention it to account for the letters and papers being all wetted through by the river water.

The Bolivian Minister arrived up from Montevideo yesterday. His luggage was stopped for a while at the mole, as he refused to give his keys; however, when the Port Captain's officer came up and received the Minister's card, the luggage was at once allowed to pass unopened.

Such a multitude of subjects attract the public mind at present that it is not surprising some few things escape attention. The fall of Humaita has so monopolised us all that we have overlooked the fall down stairs of the Oriental War Minister, the toss was such a severe one that H. E. was stunned for a few minutes; when picked up it was discovered that H. E. was much hurt, he was then and there carried to a sofa, placed in reclining posture, and the doctor sent for. Had the accident occurred late in the evening some ungenerous parties might have attributed it to H. E. having spent the evening with some friends, but he nearly broke his neck in the morning at an hour which even in Montevideo is considered too early for a cocktail. We have looked through Montevidean papers to obtain some further particulars about this melancholy accident, but they give nothing. Charity suggests the presence of an orange peel or some slippery substance; but the Minister must have sufficient common sense to know that the public is ever uncharitable; nothing can be simpler than a man groping in the dark, should knock up against a door, and get a black eye, and yet who will believe him. Ministers are after all but mortals, open to the same temptations as the rest of us, an accident such as the one in question therefore calls for some explanation, we admit that it is possible for a Minister who lives in a two-story house to slip on the stairs at 11 o'clock in the morning and come down by the run, but it is improbable that such an accident could occur without some cause. The silence of the papers in Montevideo on the subject, is circumstancial evidence that the popular belief respecting such matters is correct and the violent triumph of the force of gravity was produced by the usual antecedents.

An English merchant, of long standing and experience, informs us that not for years has business been so dull as at present. Few of the importing-houses can do more than pay their expenses; and the difficulties attending the collection of accounts have arrived at such a pass, that the merchants will be obliged to adopt some measures for self-protection. The system of selling on open credit, without 'pagarés,' has produced the present state of things. We are creditably informed that some houses have received instructions from home not to sell any more on open credit; but until all the houses come into an arrangement nothing can be definitely done, as the dealers will always give a preference to houses that sell without the formality of a 'pagaré.' It is hoped, however, that in a very short time business will improve, and large shipments made to Paraguay and Matto Grosso. The moment the river is clear there will be a rush for those parts, but where the money is to come from, as the people are without a farthing, is really a mystery. It is every way probable that the principal merchants in Asuncion will be Brazilians and Argentines; and as it is probable that the Allies may maintain an armed occupation in Asuncion for some years to come, there is every reason to suppose that the trade of that place will again become important.

A subscriber wants to know what has the Municipality done with the various schemes for supplying the city sewerage? The summer is fast approaching, and yet there seems not the slightest prospect of any sanitary reform. In December we shall have a partial water supply; but can any one say where the waste water is to go to?

The stoppage in transit of the prize yerba in Paraguay at the mole-head by the Custom-house officers has provoked immense censure, and, possibly, will give rise to a nice point of law for the courts to decide upon. The question is in a nutshell. On the entry of the allied troops into Humaita several hundred tercios of yerba were discovered in the cuartels. A portion of this yerba was allotted to the Argentine officers then in occupation: these, with praiseworthy affection, sent the yerba down to their families in Buenos Ayres, not for the purpose of sale, but for private consumption. The grasping Custom-house authorities, however, overruled everything, demanded the twenty-three and a half per cent. duty, and, in default thereof, seized the yerba, on the plea that it came from a foreign country, and was subject to the impost. We trust that the Minister will look at the question in the right manner, and yield up the yerba to these poor people.

On the discussion of the capital question in Congress on Tuesday Mr. Granel broke out into a tremendous invective against the city and province of Buenos Ayres, which took the whole House by surprise, and fairly stunned the people in the gallery He characterised Buenos Ayres as the home of revolution, and where governors are knocked down in the streets. It was the first parliamentary ebullition this session. Well-informed parties assert that there is a majority in Congress for the immediate removal of the capital from Buenos Ayres. Where to put the Government is the only question in dispute. Some think Rosario, others Parana, and a few Fraile Muerto. We must confess that Argentine politicians have a peculiar knack of their own to surround every question with the most intricate complications. Every sensible man in the city admits that Buenos Ayres is the right and proper site for the capital, and yet, notwithstanding all this, every session there must be a flare up in Congress on the subject.

Our Mr. Craufurd arrived back from Humaita on Tuesday night, and we publish to-day a most graphic letter from his able pen. The "Standard" thanks Capt. Morse, for his attention to Mr. Craufurd during his editorial trip.

The Venezia came in on Tuesday afternoon from Paraguay, but the Parana brings a few hours later.

We are happy to say that there is no truth whatever in the report that General Jordan had shot Reguera and Ocampos; it seems that according to last dates Reguera was near Esquina, with Ocampos, at the head of about 500 Correntinos National Guards.

When the Parana passed Goya General Mitre at the head of nearly three thousand men was preparing to march in search of General Caceres—and was only waiting for the final equipment of carts and means of transport. Two more battalions were preparing to march from Paraguay to reinforce him.

Rosario bids fair to outstrip even Buenos Aires in go-aheadism—the unsettled state of the political horizon appears to have no influence over its commercial and industrial activity. The gas works which extend over a large piece of ground not far from the landing-place, promises soon to be completed and will add a vast improvement to the city. In every street buildings are being run up, and we hear that our active friend Monsieur Marechal has just concluded the purchase of a magnificent piece of ground

overlooking the river, in 20,000 pats., where before a twelvemonth be expects to open a hotel which for splendor and accommodation will completely outshine the Oriental of Montevideo. An army of masons and workmen has been already engaged by M. Marechal who are to proceed at once to Rosario to begin operations.

The fine steamer Parana gives us another chance to admire her splendid qualities as a first-class passenger boat by leaving next Sunday morning for Humaita, wherefrom she will positively be back in ten days. The last time we had the gratification to report that she had taken many passengers, among whom there went our special correspondent, and were not mistaken when we announced a 'pleasure-trip,' as such has been confirmed by many parties. This time, judging by what we have learned of our country people, who are preparing to go by the Parana, she will take a great many passengers belonging to the most fashionable circles of our city. It is not strange such should be the case when the accommodations are so splendid and the treatment excellent, and the attentions paid on board by every officer are so refined. We must add, finally that she will only charge $f.83 for a round trip to Humaita.

The Argentine war steamer Admiral Brown was despatched at a late hour on Tuesday night for Corrientes, with the second Admiral on board.

The National Government is about to despatch the little screw steamer Marinette to be stationed off the Rio Negro. This is a move in the right direction.

Late in the afternoon, yesterday, we heard that there is no room for doubt that on Sunday next, the 16th, Congress will hold a special sitting, for the purpose of revising the returns for the Presidental election, and proclaim the new President and Vice-President of the Republic.

The Flamsteed arrived yesterday morning, bringing the long-wished-for specie remittance: boats were sent off with a crew armed to the teeth, to bring the gold ashore, and at half-past two the gold arrived at the bank—250 bags, of £1000 each, the largest amount of gold ever seen at one time in this city. The bank door was, of course, crowded to witness the arrival of this welcome visitor.

We are glad to hear that the Hon. Secretary of the proposed Jockey Club of Buenos Ayres, has arrived. Already several sealed notes, with entrances of horses for the approaching meeting at Randales, which are to be opened in presence of the Provisional Committee. The entrances close to-morrow evening at seven o'clock, and should be addressed to the Hon. Secretary, either at this office, or at No. 42 Calle San Martin.

Saturday being the French national day, M. Noel, the French Minister, gives an official banquet and an evening reception. Numerous invitations have been issued to the Diplomatic Corps and a select circle of our fashionable society.

IMPORTANT FROM MONTEVIDEO.

MODEL PATENTE LAW.

Montevideo, Aug. 7.

Dear STANDARD,

I have just read the new Patente Law, as sanctioned by the Legislature, and which comes into force next year, by which it appears that the Republican doctrine, that "all men are equal before the law," does not hold good in Montevideo: for, on looking over the decree, I see it stated in Art. 2, Classe 11.—"Los saledaros formales, &c. (vide *Siglo*, Aug. 7), are to pay a patent of $100; but if such establishments should belong to foreigners they are to pay $130." This is not all—Art. 4 states—"which establishments. &c., are to pay the highest patente, and that every establishment belonging to foreigners is to pay it."

Why this difference? Why tax foreign industry carried on in the country more than native?

But to show how ridiculous the whole affair is—the difference of $30 is to be made if they will keep a native clerk, or have a native apprentice, or a couple of native sempstresses—in fact a premium of $30 on native clerks and apprentices, and $15 each on sempstresses. This is the ridiculous light; now look on the other side of the picture.

It is not the question of the amount, but the principle involved; it is opposed to all principles of justice, and is a direct tax upon foreigners and foreign industry. Impose direct taxes, high protectionist customs, heavy patente laws—but let them be borne equally by all in the country; for, with such decrees as the present, we may expect to see the same principle extended—for instance, an extra tax on foreign goods and property, an extra per centage on the goods he obtains through the Custom House, &c. In fact, the present decree is making a distinction between native and foreign industry carried on in the country,

Here is a narrow-minded policy in 1869 in Montevideo, worthy of Dr. Francia.

It may be all very well to poohpooh it; the doctrine is established—and whether the interests it involves are great or small, the principle remains the same.

What think you of this, gentlemen, for a bit of Montevideo statecraft? I say "Viva los gringos!"

I see the Legislature have decreed the "all-round-my-hat" network of railway, and guaranteed 7 per cent. on I don't know how many miles, and have agreed to borrow $400,000 for Custom House deposits, &c.

I shall try and find out the length of these lines, and will then let you know the amount upon which 7 per cent. is guaranteed—and also a few other liabilities of this progressive Republic.

Yours truly,

SLEEPER.

ASILO DE MENDIGOS.

DELAPIDATED STATE OF THE CONCERN.

You had the kindness to publish the state of the Asilo de Mendigos in the beginning of January, 1865, and now I take the liberty, as I have been here over nine years, of sending you a description of its present state, just to prove to you that it is actually going to ruin.

At the commencement of the cholera we had the good fortune of being visited by the Commission of Health; Mr. Edward Hopkins and Mr. M. Bilbao gave orders to have the premises whitewashed and cleaned up. The bedsteads were cleaned and painted, thus getting rid of some vermin, and the diet and things in general altered for the better. But this only lasted till the cholera disappeared. When those who have died during the last two years were interred, they were taken, without coffins, on a litter covered with a black pall, and thrown into the grave, as coffins were too expensive; but now those who die are buried with coffins. Those that are taken sick here are not sent to the hospital; a doctor calls occasionally, or when sent for; and the diet given to the sick is the same as that for the healthy. In this case the out-door beggars are best off.

At first this establishment had a contractor for the provisions at the rate of $1 a head; subsequently they curtailed it to $3½, and at last reduced it a little more—but still the expenses are the same. Clean shirts and drawers are given round once a fortnight, and sheets and pillow-cases, once in three or four months—but these articles are so worn out that they are mere rags. As for crockeryware and plates, all are gone, and those that can, buy a tin plate for their own private use.

As we have no visits from the Municipality, they know nothing except the information from the Administrador. At the present we number above 55 to 60 males, and 20 females—this is less in number than we have had since the commencement of 1858. With the cholera we lost 21 persons, mostly women—the matron and second capataz, Michael Morgan, a native of Ireland, died on the 30th Dec. last, and William Stevenson, of Bristol, on the 31st Dec. At the present we have no Englishman, Irish, Scotch, or North American, except myself; the most are Italians, French, and Old Spaniards.

But I find that the city is full of beggars, those mostly who have followed the trade for the best part of their lives, and make it out better probably than those that are here. For my part I have not learned the trade as yet, except in calling at the Office of the 'Standard' to beg a newspaper. If I had what belongs to me, I assure you I would not be where I am.

On inquiry, I find that the subscription is not giving the same as formerly; but the true reason is that they are not contented in the way the money is expended. The best (and almost the only) thing that remains of the generosity of the first founder of this institution is the building, and no better could be got; notwithstanding there are some who tried to get us cleared out, to occupy it for other purposes. But I hope that it will remain as it is for the few days that I may have to live, as I am now 72 years old.

Nothing can better our situation at present, except some gentlemen of influence should propose to get the Sisters of Mercy, the same as in the Hospital, to take full charge; then, I feel confident, that the blind, lame and sick would be taken care of—for I have seen and felt the effects of those charitable ladies' kind attention. The Municipales would then be at less expense and we more at ease.

WARD AND PAYNE, Manufacturers, &c., SHEFFIELD, ENGLAND,

Beg to draw the attention of the Public generally to the Class of Goods (in this especial case SHEEP SHEARS), which bear their mark, so long known in England as holding the highest position.

Knowing fully the necessity of supplying the Market with an Article which, in respect of quality, should be greatly superior to anything which the Consumer has yet met with, WARD and PAYNE have this year supplied for the various orders committed to their care Sheep Shears, which they confidently recommend as being of the finest quality, and which, once in the hands of the Consumer, will fully bear out all that is said in their favour.

WARD and PAYNE have pleasure in referring to the undermentioned Testimonials,—selected from many that have been gratuitously forwarded to them,—originals of which lie at our Office for the inspection of Principals:—

[Copy of Letter received from New Zealand.]

Christchurch, April 1, 1868.

Messrs. Ward and Payne.

Gentlemen,

Yours of the 1st of February came duly to hand. I am pleased to hear that your Shears are giving such satisfaction in the Australian Colonies. I also am perfectly satisfied with my last year's results, and can endorse the reports; but unfortunately I have had a good deal of uphill work with your Shears.

The prejudice is now, however, overcome, and should you continue the quality as last year, I shall be able to dispose of a large quantity.

Please ship me at once a further quantity, in addition to orders on hand: particulars as at foot. Meantime,

I am, yours respectfully,

• • • •

[Extract from Letter received from a Merchant Trading with South America.]

November 30, 1867.

Messrs. Ward and Payne.

Dear Sirs,

We are glad to say your Shears have now got into the Consumers' hands, and if they turn out well, as we have no doubt they will, your Make will take a lead in the country, which will be one of the largest sheep countries in the world, if not the largest.

Before the writer left Buenos Ayres, he had an interview with one of the largest breeders of sheep in the country, and prevailed upon him to take a few dozen of your Shears. He now describes them as being better than (here W. and P., out of courtesy to other manufacturers, leave out the name referred to in the letter), whose Shears he had used for upwards of 20 years.

Looking at this fact and others we have in our possession, we are sure that, if you only take care to keep up the quality and finish to your present standard, there is a bright future before you for your Shears in the River Plate.

We are, Dear Sirs,

Yours truly,

• • • •

[Extract from Letter from a Melbourne Mercantile Firm.]

London, E.C., 17th January, 1868.

Messrs. Ward and Payne, Sheffield.

Dear Sirs,

While handing you order for our season's supply of Sheep Shears, we express a hope that you will give it the same careful attention as last. It may interest you to know that the Shears and Tools had from you last year have given our friends entire satisfaction.

The best proof that the quality, style, and finish of your Shears have been approved of by our friends is the quantity now ordered, which is 1,000 per cent. in excess of last year's specification. The only drawback we experienced in supplying your Shears to our numerous Customers all over the Colony was their desire to return Shears of another brand previously supplied, and to get yours instead.

We have no doubt your efforts will be directed to maintaining the quality.

We are, Dear Sirs,

Yours truly,

• • • •

[Extract from Letter received from a Merchant Trading with New South Wales.]

London, January 23, 1868.

Messrs. Ward and Payne.

Dear Sirs,

It affords me very great pleasure to inform you that we have very good reports of your Shears, and I give you extracts from letters that have been sent to me by the present mail: they are from large Sheepfarmers and men who have apparently had the reports from the Shearers:—

"Extract from Letter from S. A. Craik, Esq., Inspector of Stock and Stations of the Australian Agricultural Company.

"I have at present over thirty shearers at work under me, who agree to a man that Messrs. Ward and Payne's Shears are the best shaped and finest tempered they ever used. They say they would rather take one pair of Shears by the above makers than a dozen pairs of the well-known Double Crown Shears. The Double Crown Shears may have been good once, but they are not so now, either in shape or temper, as a general rule. Please inform me how many pairs of Shears you have left (without springs) of the same description as those you have already sent me, as, if the quantity does not exceed 120 pairs, I might be inclined to purchase them for next year. Will you be inclined to take back the few pairs of Double Crown Shears you sent me, as after trying Ward and Payne's Shears, the shearers will not look at any other? You are at perfect liberty to make any use you like of this letter, as I do not write it for the purpose of puffing your Shears, but with the view of benefiting the squatting community, in recommending an article which hitherto I never succeeded in procuring good, and I believe most of my squatting friends will say the same. Your present lot of Ward and Co.'s Shears are undoubtedly a great success."

"Extract from Letter from Francis White, Esq., Of Belltrees.

"I have found Ward and Payne's Shears very good indeed: they are the best Shears I have had in my shed this season. . . . . Next year I shall use only Ward and Payne's Shears, if I can get them as good as the sample I have this year."

We send you an order for Shears, which we wish sent so as to be in time for next shearing.

We are, Dear Sirs,

Yours truly,

• • • •

GREAT AUCTION SALE, BY BALBIN AND PLOWES OF RAMBOUILLET IMPERIAL RAMS.

On MONDAY, the 18th day of August, at Eleven o'Clock precisely, Messrs. BALBIN and PLOWES will Sell by Auction, without Reserve, at their Auction Rooms, No. 19 CALLE PERU, 40 Magnificent Rambouillet Imperial Rams, bred by Wilfred Latham, Esq., at his celebrated Cabaña de los Alamos. These Rams, at the day of Sale, will be 15 or 16 months' old, with a growth of wool corresponding to that age, less the lambs' points, which were shown last Spring, so that, in effect, they will have on them from 13 to 14 months' growth of wool.

The unrivalled Breed of Mr. Latham's Rambouillet Imperial possesses, as will be seen on inspection of the Rams, in the highest degree a combination of all the most desirable qualities—viz., closeness of pile, length, strength, and firmness of shape, and remarkable weight of fleece; together with a well-defined and beautiful type, neat, broad-fronted, and well-woolled heads, with well-set horns; handsome neck folds and collars; wool thickly covering the bellies and down the legs; deep, weighty, and level carcases on short legs; broad and strong over the loins,—in fact, every condition of beauty, vigour, and profitableness.

The special attention of those Gentlemen who have heretofore dedicated themselves to breeding or refining with the Negrette race is called to these Rams, which possess those qualities and characteristics that mark them as the only type in the country—the true Rambouillet Imperial—which present suitable conditions for crossing on Negrette, or fine Negrette-Mestiza Ewes. Such breeders will obtain from this stock progeny retaining trueness of type and compactness, while attaining to much greater bulk of carcase, very much greater length of staple and weight of fleece, and remarkable brightness and soundness of wool. Also the attention of those Gentlemen who have been breeding from the various French Merino races, which pass in this Country under the name of Rambouillets, such as the Gilberts, Cugnots, and others, is especially called to these Rams. They will find in them that beauty and trueness of type which is the specialité of the Imperial Rambouillet, par excellence. Those Gentlemen will obtain by the use of these Rams great advantage in quality and length of wool, as well as in compactness of form and levelness.

On the same Day Messrs. Balbin and Plowes will Sell by Auction, and without reserve, 10 two-year-old Rambouillet Rams from the same Cabaña—large, deep-framed, wonderfully solid, of remarkable vigour and hardness.

Their fleeces,—fine, long, and close,—will be of about one year's growth on the Day of Sale.

Also, by Private Contract, two beautiful Type Sires, two and three years' old, with nine to ten months' growth of wool, which Mr. Latham is enabled to dispose of in consequence of a redistribution of families, and a classification which he has deemed it advisable to make so as to provide against all possible danger of incestuous breeding. It will be remembered that one of these sires was exhibited last season, and was pronounced by the most competent judges to be marvellously perfect. They have only served a few picked ewes, and are models of vigour and compactness.

☞ The Rams will be on View at the Auction-rooms on and after Wednesday, the 10th day of August. 239,xp,jy30

RAM AUCTION

Mr. BENJAMIN NAZAR will Dispose of by Public Sale, at No. 23, CALLE CHACABUCO, at ELEVEN, A.M., on WEDNESDAY, 26th instant, 37 Pure Negretti Rams, and an equal number of Magnificent Rambouillet and Negretti Cross. The former are no less suited as Sires, on account of their pure blood, than for their neat type, faultless proportions, and thick heavy fleece. The latter will be found to combine the best qualifications of both races. This cross is decidedly the most useful animal; being much hardier and larger than either of the pure breeds. The wool is also greatly prized by Manufacturers and Farmers desirous of making Sheepbreeding a lucrative business, who must sooner or later bring their flocks to this level.

In 1867, the first Lot of this class were Auctioned at the Estancia, Santa Maria. Large numbers of old, experienced and intelligent Campmen attended and expressed their admiration of the half-breeds. The brilliant result of the past year more than justified them. Mr. Ernesto Oldendorf's care will not, therefore, have been spent in vain on the present Animals, which from the 13th instant to Day of Sale will be on View at 23 Calle Chacabuco. 39,xp,a7

REMATE.

POR BALBIN Y PLOWES—Gran remate de carneros Rambouillet—En su casa Calle del Peru No. 19.

El Martes 18 de Agosto a las 11 en punto de la mañana, a la mas alta postura y dinero de contado, se remataran 40 magnificos carneros Rambouillet criados por el Sr. Lathan en su afamada Cabaña de los Alamos.

Estos carneros el dia de la venta tendran de 15 a 19 meses con la lana correspondiente a esa edad menos las puntas de lana que fueron trasquiladas en la primavera, debiendo reputarse por esta la lana que actualmente tienen de 12 a 14 meses.

Esta cria sin rival de Rambouillet Imperiales del Sr. Lathan posee como se puede averiguar viendo los carneros, la continuacion mas completa de las condiciones mas requeridas, a saber: tupidez al ura, fuerza y finura de lana, con vellon de un peso estraordinario: unido todo esto a un tipo hermoso y bien determinado, mucha lana en la cabeza, anchura de frente entre las aspas siendo estas bien formadas, rollos hermosos en el pescuezo, lana tupida en la burriga y en las patas, posellendo ademas las cualidades de ser anchos y fuertes de lomo y riñones, en fin reunen todas las condiciones de hermosura, de vida y de provecho.

Se llama la atencion especial sobre estos carneros a todas aquellas personas que hasta hoy se han dedicado a la cria o cruza de la raza Negretta, pues poseen aquellas calidades caracteristicas que les señalaban como el tipo especial en este país [el verdadero Rambouillot Imperial] que presenta las condiciones adecuadas para la cruza con Negrette, si ovejas finas de Negrette mestizas.

Los criadores que obtengan padres de los que se van a rematar tendran con este cruzo un prole que perpetuará su tipo verdadero.

Ese mismo dia estarán en venta particular dos hermosos padres tipo, de 2 o 3 años de edad, con 9 a 10 meses de lana de los cuales el Sr. Lathan puede disponer a consequencia de ona nueva distribucion de razas de familia, clasificacion que el Sr. Lathan ha creido conveniente hacer para evitar todo peligro posible de incesto.

Hacemos presente que uno de estos padres fue puesto en exhicion la primavera pasada y fue clasificado por los jueces mas competentes de ser un animal de una perfecion maravillosa. Han servido unicamente algunas ovejas escogidas y son modelo de vigor y solidez.

Los carneros estarán a la vista en casa de los rematadores desde el Lunes 10 de Agosto. 26,12p,a7

SPOONER'S ALLEVIATOR: AN INFALLIBLE CURE FOR RHEUMATISM, NEURALGIA, &c.

Having been for years a great sufferer from Neuralgic Affections of the Head, I tried, but without any permanent success, the Prescriptions of some of the first Surgeons of the day, and all the Medicines recommended by Advertisers. At last, driven almost to despair, I tried everything that I thought would alleviate the pain, and, after various scientific experiments, succeeded in discovering a safe, speedy, and effectual cure, since which time [two years ago] I have never had a repetition or even symptom of the complaint.

I have constantly prescribed it for Tic-Douloreux, Neuralgia, Lumbago, Sciatica, and every description of Rheumatic Affections, and have never yet known it to fail, and have moreover the testimony of numerous eminent Medical Practitioners as to its infallible, astounding, and non-injurious cure for the above diseases.

A Bottle of this invaluable Medicine—price, $25—can be had at the undernamed Address, with full directions for use.

The following is one of the numerous Testimonials received:—

"Belgravia House, Jersey, Sept. 10, 1867.

"DEAR SIR,—I have great pleasure in giving you the Testimonial you require, as I consider your Medicine the grandest cure I ever met with for all Rheumatic Affections. Since curing my wife, I have oftentimes prescribed it for severe cases of Neuralgia and Lumbago, and have never yet known it to fail.—Yours sincerely,

THE ACME OF MEDICAL SCIENCE
IS ACHIEVED IN THE WONDERFUL
DISCOVERY OF NEW MEDICAL
PRINCIPLES IN
DR. RADWAY'S
PERFECT PURGATIVE PILLS
COATED WITH SWEET GUM.
1st Principle—A vegetable substitute for Calomel or Mercury is secured.
2d. A cathartic that cleanses the alimentary Canal and its neighboring Viscera as thoroughly as Lobelia does the stomach.
3d. Functional Harmony is secured to the secreting vessels of all the organs and glands in the system.
4th. Purification and equalization of the circulation of the blood.
5th. The properties of these Pills communicate a nutritious principle to the blood and reparative secretion.s
6th. A great want is supplied in their soothing, healing and expulsive power in cases of intestinal ulceration, as in Eruptive Fevers, where a cure depends upon free evacuations.
7th. The aged and persons suffering from paralysis of the bowels, by the use of one pill per day, secures regularity.
Persons suffering with any disturbance of the secretary organs, or that have difficulty in discharging the contents of the bowels, or that are in the habit of taking Pills or opening medicines, should try one box of these truly excellent Pills. The happiness of their effects on the system, and the satisfactory evidence one box will give you of their wonderful curative powers, will convince you that your faith and trust in them will become firmly established.

RADWAY'S
REGULATING PILLS.
A newly discovered principle in vegetable medication is securred in Radway's Regulating Pill, that places them far in advance of all other Purgative or Cathartic, Aparient or Sedative, and Anti-Bilious Medicine. They are the only vegetable substitute for Calomel or mercury known; the only Medicine that, during their process of purging, imparts nutriment to the debilitated system, and strengh, vigor and purity to the blood, and impaired secretions: the only purgative that will cleanse the Alimentary Canal and obstructed intestine as quickly and thoroughly, without weakening or neauseating the patient, as Lobelia (the most active and thorough emetic of the herbist) will the stomach, and the only purgative at present known safe to administer in case of Small Pox, Yellow Fever, Erysipelas, and other Malignant Fevers, that inflame and ulcerate the mucuous membranes of the Bowels, Stomach, &c.

THE PROPERTIES OF
DR. RADWAY'S PILLS.
They equalize the circulation, Purify the Blood, and Purge Corrupt and Acrimonious Humors, and retained deposits from the system in six hours.
AS A CATHARTIC, the increase, when suspended, the peroitaltic movement of the bowels, and promote a quick evacuation of its contents. Their influence is extended throughout the system, purging the retained deposits in the stomach, into the duodenum, stimulating the secretory, ducts of the pancreas and liver, in the promotion and increase of the flow of bile and pancreatic fluids.
PURGATIVES of common aloes exert their action on the colon and rectum by irritation of the mucuos membrane, without influencing the liver or its secretions. Such cathartics are unsafe in pills for general use. The common Cathartic Pills, that induce drastic liquid discharges, should never be given in cases of inflammation, or when there is ulceration of the intestinal canal.
THE APERIENT and mild LAXITIVE properties of RADWAY'S PILLS are the best safeguard in these disorders, and in all cases of eruptions and malignant fevers their balsamic, healing and sothing properties protect the coats of the alimentary passage against the irritant and acrid humors of the fauces.
THE NUTRITIOUS AND TONIC properties of these Pills are of great service in depleting fevers and uterine discharges, likewise as a dinner pill, to increase the appetite and promote digestion.
THEIR SEDATIVE properties allay pain in the nervous system, stomach and bowels, either from inflamation, colic, flatulence, wind, cramps, &c.
THEIR COUNTER IRRITANT influence extends threughout the system where there is inflamatiou, congestion or irritation, stimulating the blood and nervous fluids in the congested vessels, and equalizing its circulation. The principle of Counter irritations is generally applied to extrenal remedies. Its application, internally, in the form of a purgative medicine, exemplified in Radway's Pills, has proved a wonderful curative principle, readily withdrawing from the blood and fluids their acrid and irritating humors.
AS DIAPHORETICS OR SUDORIFICS they stimulate the secretions of the skin, induce exhalation of obstructed perspiration.
THEIR DIURETIC properties act on the kidneys, correcting and regulating the flow of urine.
THEIR ANTI-BILIOUS properties stimulate the liver in the secretion of bile, and its discharge thorogh the biliary ducts. In all cases of Headache, Jaundice, Bilious Attacks, Saffrom-colored Skin, Impaired Digestion, caused by the overflow of bile and its mixing with the blood, these pills, in doses four to six, will quickly regulate the action of the liver and free the patiedt from these difficulties. One or two of Radway's Pills taken daily, by those subject to bilious pains and torpidity of the liver, will keep the system regular and insure healthy digestion.
In case where there is severe inflamation, paralysis of the bowels, and a speedy discharge of their contents required, grind six of the pills to a powder and take in some preserves or water. In half an hour the pills, given in this way, will generally operate. The dose can be repeated, if necessary, in two hours. We have known the pills, given in this form, to opon the bowels weon Croton Oil. Elaterium, Podophyllum 'Mandrake' have failed. It is seldon that a second dose will be required in these cases of Intestinal Obstructions.

PENEDO'S VEGETABLE SYRUP,
THE GREATEST MEDICAL DISCOVERY
OF
MODERN TIMES!
HAS CURED THOUSANDS!

FAREWELL, A LONG FAREWELL, to Consumption, Affections of the Chest, Hooping-Cough, Chronic Bronchitis, and Asthma.
All sufferers from these dangerous Diseases will experience immediate relief even in the most desperate cases.
Several eminent Members of the Medical Profession, whose testimony may be relied upon with the most perfect confidence, have obtained the most satisfactory results in cases of Consumption by the use of this valuable specific—in fact,
THE SYSTEM OF THE PATIENT UNDERGOES A COMPLETE TRANSFORMATION.
Professor PENEDO feels assured that the above-mentioned discovery will always maintain a vast superiority over all other Preparations, as it is generally known that these invariably contain a large quantity of mineral matter; which is most hurtful to the human frame.
This SYRUP is prepared solely from one of those valuable vegetable productions for which the surrounding country of the Brazils is so justly famed.
The annexed Testimonial has been received, and is one of many thousands, testifying to the medicinal virtues of Penedo's Syrup:—
"Professor J. A. PENEDO.
"HONORED SIR,—In answer to your Correspondence, allow me to inform you that my Lady has used the Preparation, called "Penedo's Syrup," and by its assistance, she was in an incredibly short time completely cured of the Pulmonic Disease from which she was suffering.
"Allow me to assure you that you have my best wishes for your future success, and I shall be happy if you will make whatever use of this letter that you may think proper.
"Sincerely yours,
"BARON OF PORTO ALEGRE.

SAVINGS BANK.
BANK MAUA AND CO.
101--Cangallo--103.
BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.
The Bank of Mauá & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.
The sums deposited in that very important institution are daily increasing, and already reach a very large amount.
These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.
The Bank of Mauá & Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.
The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.
The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date.
The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.
The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.
Buenos Ayres, 2nd January, 1867.
P.P. MAUA & Co.,
M. A. DE FREITAS AMORIM.

CONDITIONS.
First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.
Second—The interest allowed is six per cent. (6 p.%) per annum, which is liquidated every six months.
Third—The depositors can at any time retire the whole or part of the money deposited.
Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishes can open an account current, according to the rules established by the Bank.
Fifth—In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

FOR SHEEP AND LAMBS,
FREE FROM ARSENIC, MERCURY, MINERAL AND OTHER POISONS.
DEADLY TO ALL PARASITES INFESTING THE SKINS OF SHEEP AND OTHER ANIMALS.

THIS PREPARATION is destined to supersede the Compounds hitherto Advertised, and which have a tendency to destroy Animals, injure the Men engaged in Dipping, and weaken the Wool by their caustic and reducing properties.
The "GLYCERINE" DIP can be used with perfect safety at any Season of the Year, and has been found in practice invaluable for the following purposes:—
I.—In Curing Scab, Killing Acari, Fags, Ticks, and other Parasites which attack the Sheep.
II.—In strengthening and adding lustre to the Wool.
III.—In Washing Sheep shortly before Clipping, leaving the Fleeces in a pure state.
IV.—In Dipping Lambs, even whilst suckling ewes, as they cannot be injured by the Material.
